

CP-1040E

Control Panel, 1RU 40 LCD buttons

The CP-1040E remote control panel features 40 full color dynamic LCD buttons in 1RU, all of which are fully programmable.

Each of the 40 LCD buttons are capable of displaying up to three rows of five characters. The panel can also be configured with a menu structure that allows quick navigation through the systems. When a menu button is pressed some or all of the buttons change their function and legend. Their operation is then defined by the configuration setup for this new menu.

The CP-1040E is a very sophisticated advanced panel that allows you to create a very powerful and very simple interface to your entire system. It is ideal for applications where a panel with more LCD buttons is critical based on number of sources, destinations, levels to control etc, is desired all in a smaller 1RU package. This makes it perfect in many different environments including Production areas, Technical Director areas, "Tape" areas, etc. Considering its small footprint the CP-1040E is perfect for use as an advanced control panel in truck and mobile applications.

► Features & Benefits

- Flexible feature or menu driven configurations providing quick and simple access
- Easily reconfigured for regularly changing environments
- Fully programmable buttons
- Shallow depth for console-installed applications
- Supports Ethernet for connection to MAGNUM Router Control system

► Specifications

Control:		Physical:		Compliance:	
Joystick:	Parallel contact closure TTL levels, D9 male	Dimensions:	19" W x 1.75" H x 2.45" D (483mm W x 45mm H x 62mm D)	Safety	TüV listed, complies with EU safety directives
Ethernet:	10/100 base T, RJ45 connector	Weight:	2lbs (0.9kg)	EMI/RFI	Complies with FCC Part 15 Class A regulations
Electrical:		Operating Temp.:	0-40°C		Complies with EU EMC directive
Configuration:	Dual redundant				
Voltage:	12V DC				
Current:	2A maximum				
Power:	24 Watts maximum				
AC Power Adapter:	Auto-ranging 100V-240V AC, 50-60Hz
